Explanation of Symbols

The following symbols are used in this Tariff and have meanings as shown:

A	Increase in rate or charge
C	Change in wording
D	Discontinued rate or regulation
F	Reformatting of existing material with no change to rate or charge
M	Matter moved from its previous location
N	New wording, rate or charge
R	Reduction in rate or charge
S	Reissued matter

Abbreviations of Companies Names

The following company names are used in this Tariff and have meanings as shown. The current "List of Registered Telecommunications Providers" may be found on the CRTC web site at: https://applications.crtc.gc.ca/portail-portal/eng/listes-lists/registration/5 C C

9315-1884 Quebec Inc.	Formerly La Cie de Téléphone de Courcelles Inc. and La Cie de Téléphone de Lambton Inc.	N N
Bell Canada	Bell Canada	C
Bell Aliant	Bell Canada, operating as Bell Aliant Regional Communications, Limited Partnership in Atlantic Canada, including Aliant Telecom Inc.	C C
Bell MTS	Bell Canada, operating as Bell MTS in Manitoba, including Bell MTS Inc.	C C
CityWest	Formerly Prince Rupert City Telephone	N
Cochrane	Cochrane Telecom Services of the Town of Cochrane	
CoopTel	CoopTel, coop de télécommunication	
DMTS	DMTS, a division of Bell Canada	
Execulink	Execulink Telecom Inc.	
Gosfield	Gosfield North Communication Co-operative Limited	
Groupe Maskatel	Groupe Maskatel LP (Téléphone Guèvremont, Téléphone de St-Éphrem, Téléphone de St-Victor, Téléphone Upton)	
Hay Communications	Hay Communications Co-operative Limited	
HuronTel	Huron Telecommunications Co-Operative Limited	
KMTS	KMTS, a division of Bell Canada	
Lansdowne	Lansdowne Rural Telephone Company Ltd.	N

S

Abbreviations of Companies Names - continued

N

Mornington	Mornington Communications Co-operative Limited
Nexicom Telecom	Nexicom Telecommunications, a Division of Nexicom Inc.
Nexicom Telephones	Nexicom Telephones, a Division of Nexicom Inc.
North Frontenac	North Frontenac Telephone Corporation Ltd.
North Renfrew	North Renfrew Telephone Company Limited Trade
NorthernTel	NorthernTel, Limited Partnership
Northwestel	Northwestel Inc.
Ontera	Ontera, a division of NorthernTel
Persona	Persona Communications Inc.
Quadro	Quadro Communications Co-operative Inc.
Roxborough	Roxborough Telephone Company Limited
SaskTel	Saskatchewan Telecommunications
Sogetel	Sogetel Inc., Téléphone Milot Inc.
TBayTel	TBayTel
Télébec	Télébec, société en commandite
TELUS	TELUS Communications Inc. (TCI), including TELUS Communications (B.C.) Inc., TELUS Communications (Québec) Inc., TELUS Communications Company and BC TEL.[1]
Tuckersmith	Tuckersmith Communications Co-operative Limited
Westport	The Westport Telephone Company, Limited
Wightman	Wightman Telecom Ltd.

N

1. Regarding TELUS, effective October 1, 2017, TELUS Communications Company ("TCC") assets were legally transferred to TELUS Communications Inc. ("TCI") and TCC ceased to exist. Accordingly, all references in this tariff to "Former TCI (AB)", "TELUS Communications Company" or "TCC" shall be read as referring to "TELUS Communications Inc."

PART A Definitions and General Terms

ITEM 100. General

This Tariff sets out the rates, terms and conditions that apply to the provision by **Xittel** (the Company) of services, facilities and interconnection arrangements to providers of telecommunications services and facilities (hereinafter referred to as "Telecommunications Providers") who are eligible to subscribe pursuant to Telecom Decision CRTC 97-8 ("Decision 97-8") and any other applicable CRTC decisions or orders. Such services, facilities and interconnection arrangements are referred to in this Tariff as "interconnection services". For greater certainty, this Tariff does not apply to services and facilities provided by the Company to the Company's end-customers or to resellers of the Company's local services. C C C C

The provision of interconnection services by the Company to Telecommunications Providers under this Tariff does not constitute a joint undertaking between the Company and any Telecommunications Providers subscribing for such services. C | C

Unless otherwise specified in this Tariff, where rates are listed by ILEC operating territory, the Company shall apply the rate listed for the location where interconnection takes place with a Telecommunications Provider. C

S

PART A Definitions and General Terms

ITEM 101. Definitions

In this Tariff:

"Act" is the Telecommunications Act (S.C. 1993, c.38 as amended).

"affiliate" means any person that controls or is controlled by the Company or that is controlled by the same person that controls the Company and includes a related person. A person is "related" to another if (i) it either holds, either directly or indirectly, at least a 20% interest in, or any options to acquire at least a 20% interest in, any of the capital, assets, property, profits, earnings, revenues or royalties of the other, or (ii) any third party holds, directly or indirectly, at least a 20% interest in, or any options to acquire at least a 20% interest in, any of the capital, assets, property, profits, earnings, revenues or royalties of each of the persons. C C

"ANI" means automatic number identification.

"Bill and keep trunks" are facilities connecting the networks of two LECs within the same exchange, the costs of which are shared in accordance with Decision 97-8. C

"channel" means a path provided over a transmission facility for the transmission of telecommunications.

"circuit" means an analogue voice-grade or digital 64 Kbps (DS-0) channel.

"circuit group" means a group of equivalent circuits.

S

"Commission or CRTC" is the Canadian Radio-television and Telecommunications Commission.

"Common Channel Signalling System 7" or **"CCS7 signalling"** is the out-of-band signalling system used by telecommunications carriers to support telecommunications services. C

"Competitive Local Exchange Carrier" or **"CLEC"** is a Canadian carrier, as defined in section 2 of the Act, recognized as a CLEC by the CRTC pursuant to Decision 97-8.

S

"control" includes control in fact, whether through one or more persons.

"customer" means a person or legal entity, including but not limited to an end-customer, a reseller or a sharing group, that purchases telecommunications services from a Telecommunications Provider. C C

PART A Definitions and General Terms
ITEM 101. Definitions - Continued

S
S
S
S

"DS-0" is a channel capable of digital transmission at 64Kbps.

"DS-1" is a channel capable of digital transmission at 1.544 Mbps.

S

"end-customer" is the ultimate purchaser of telecommunications services provided on a retail basis by a Telecommunications Provider.

"Equal Access" is the ability for IXSPs to offer long-distance voice services to the Company's retail customers on the same terms as the Company offers those services, as set out in Telecom Decision CRTC 92-12 and subsequent directives. N | N

"exchange" refers to the incumbent LEC's basic geographical unit for the administration and provision of telephone service, and normally includes a city, town, village and adjacent parts. C | C

"extended area service" or **"EAS"** means a service offered by ILECs enabling a customer within an exchange to make calls to another exchange without the application of long distance charges. C

"facility" means a telecommunications facility, as defined in section 2 of the Act, and includes equipment.

"ILEC operating territory" means the geographic area within which a LEC provides service as an ILEC. C

"in-band signalling" means signalling which is carried along the same channel that is carrying the information content of the transmission.

"incumbent LEC" or **"ILEC"** means a LEC that provided local exchange service on a monopoly basis prior to May 1, 1997. C

"Innovation, Science and Economic Development Canada" or **"ISED"** is the federal department that oversees radio communications in Canada, among other things. N | N

"interconnecting circuit" means a circuit or path that connects a Telecommunications Provider's facility to the Company's facilities to provide access to the Company's local switched telephone network. C C

"interexchange carrier or IXC" is a Canadian carrier, as defined in section 2 of the Act, that provides interexchange service.

PART A Definitions and General Terms

ITEM 101. Definitions - Continued

"interexchange reseller" or **"IX reseller"** is a reseller that provides interexchange service. C

"interexchange service" or **"IX service"** means a service or facility configured to operate between any two exchanges for which ILECs would apply long distance charges, including an international service or facility. C

"IX service provider" or **"IXSP"** is an IXC or IX reseller. C

S

"LEC" is a local exchange carrier.

"LEC-IXC Agreement" means the form of agreement approved by the CRTC that governs interconnections between a LEC and an IXC entitled "Master Agreement for LEC-IXC Interconnection". N | N

"local interconnection region" or **"LIR"** is a geographic area defined by an ILEC tariff within which traffic is exchanged with CLECs on a bill and keep basis.[1] C | C

"local calling area" means an area defined by a LEC wherein calls can be made by the LEC's end-customers without the application of long-distance charges. C

S

S

"MALI" means the form of agreement approved by the CRTC governing interconnection between two LECs entitled "Master Agreement for Interconnection Between Local Exchange Carriers (LECs)".[2] C

"multi-frequency signalling" or **"MF signalling"** is an in-band signalling system used by telecommunications carriers to route telecommunications traffic. C

"NXX" is the second set of three digits of a ten-digit telephone number (i.e., NPA-NXX-XXXX) which is associated with a specific exchange within a numbering plan area (NPA). C

"out-of-band signalling" means signalling that is separated from the channel carrying the information content.

"person" includes any individual, partnership, body corporate, unincorporated organization, government, government agency, trustee, executor, administrator or other legal representative.[3] C

"point of interconnection" or **POI"** is a location designated by the Company as its gateway for purposes of interconnecting to Telecommunications Providers in an exchange or LIR. C C

1. Telecom Decision CRTC 2004-46 and Telecom Decision CRTC 2006-35. N
2. CRTC, *Agreements and Guidelines*, https://crtc.gc.ca/cisc/eng/ciscmanu.htm. N
3. *Canada Business Corporations Act* (R.S.C., 1985, c. C-44), Part 1 - Interpretation and Application, Definitions, https://laws-lois.justice.gc.ca/eng/acts/c-44/. N N

PART A Definitions and General Terms
ITEM 101. Definitions - Continued

"ported numbers" are those telephone numbers formerly associated with a particular LEC and now associated with a different LEC.

"premises" is the continuous property and the building or buildings located thereon, or the part or parts of a building, occupied at the same time by an end-customer or Telecommunications Provider.

"PSTN" means the public switched telephone network.

"resale" means the subsequent sale or lease on a commercial basis, with or without adding value, of a telecommunications service purchased from the Company or another Telecommunications Provider. C C

"reseller" means a person engaged in resale of local exchange service ("local reseller") or interexchange service ("interexchange reseller").

"sharing" means the use by two or more persons, in an arrangement not involving resale, of a telecommunications service. C

"sharing group" means a group of persons engaged in sharing.

"signalling transfer point" or **"STP"** means a packet switching point in the CCS7 network which routes CCS7 signalling messages to the intended network element. C

"Special MALI" means the form of agreement approved by the CRTC governing interconnection between two LECs where one or both of those LECs obtain(s) PSTN Access from another party entitled "Special Master Agreement for Interconnection between LECs (Special MALI)".[1] N | N

"Telecommunications Provider" means a provider of telecommunications services that is eligible in accordance with Decision 97-8 to subscribe to interconnection services offered by the Company and includes a LEC, an IXSP and a WSP operating in the same exchange as the Company. C C

"transiting" occurs when a LEC receives traffic from one Telecommunications Provider and delivers it to another. C

"trunk" is a DS-0 time slot or channel within which a digital connection is made between the trunk-side of the Company's local switch and another switch. C

"wireless service provider" or **"WSP"** means a provider of public switched mobile voice services where such provider is not a LEC. C C

1. CRTC, *Agreements and Guidelines*, https://crtc.gc.ca/cisc/eng/ciscmanu.htm. N

PART A Definitions and General Terms

ITEM 102. General Rights and Obligations

This Item sets out the basic rights and obligations (hereinafter referred to as the "Terms") of both the Company and Telecommunications Providers in connection with the interconnection services provided under this Tariff. C

1. General

1. The offer of interconnection services by the Company to Telecommunications Providers under this Tariff is subject to the following: C
    1. the general rights and obligations contained in these Terms;
    2. the rates, terms and conditions contained elsewhere in this Tariff, to the extent that they are not inconsistent with these Terms, unless any such rates, terms or conditions expressly override these Terms and have been approved by the CRTC;
    3. the rights, obligations, rates, terms and conditions contained in written agreements for the provision of interconnection services under this Tariff, C
    to the extent that they are not inconsistent with these Terms or this Tariff, C
    unless any such rights, obligations, rates, terms or conditions expressly override these Terms or this Tariff and have been approved by the CRTC.

    All of the above bind the Company and Telecommunications Providers. C

2. Effective Date of Change

1. Subject to Item 102.2.2, changes to these Terms or this Tariff, as approved by the CRTC, take effect on their effective date even though Telecommunications Providers have not been notified of them or have paid or been billed at the previously approved rate. C C
2. Where interconnection services that were to be provided by a certain agreed-upon date were not provided, through no fault of the Telecommunication Provider and, in the meantime, a rate increase has gone into effect the previously approved non-recurring charges shall apply. C

3. Obligation to Provide Service

1. Except as otherwise expressly specified elsewhere in this Tariff and subject to Item 102.3.2 to 102.3.4 below, all of the interconnection services available to Telecommunications Providers under this Tariff are provided by the Company pursuant to an obligation to serve. C

PART A Definitions and General Terms
ITEM 102. General Rights and Obligations - continued

3. Obligation to Provide Service - continued

2. Notwithstanding the Company's obligation to offer the services under this Tariff, the Company is not required to provide interconnection service to a Telecommunications Provider where: C C

   1. the Telecommunications Provider owes amounts to the Company that are past due, other than as a guarantor; C
   2. the Telecommunications Provider does not provide to the Company a reasonable deposit or alternative required pursuant to these Terms; or C
   3. the Telecommunications Provider refuses to pay the additional charge referred to in Item 102.3.3.

3. Where it is necessary for the Company to install special equipment or to incur unusual expense in order to meet a Telecommunications Provider's requirements, an additional charge may be assessed based upon the equipment to be installed or the expense to be incurred. C

4. Where the Company does not provide service on an application by a Telecommunications Provider, it must provide written explanation upon request. C

4. The Company's Facilities C

1. Upon termination of service, the Telecommunications Provider must return any equipment provided by the Company. C

2. The Company must bear the expense of maintenance and repairs required due to normal wear and tear to its facilities, except that the Company may charge for the additional expense incurred when the Telecommunications Provider requires maintenance and repair work to be performed outside of regular working hours. This does not apply where otherwise stipulated in these Terms, the Tariffs, or by special agreement. C C

3. A Telecommunications Provider which has deliberately, or by virtue of a lack of reasonable care, caused loss or damage to the Company's facilities, may be charged the cost of restoration or replacement. In all cases, Telecommunications Providers are liable for damage caused to the Company's facilities by any facilities provided by the Telecommunications Provider or its customer. C C

PART A Definitions and General Terms
ITEM 102. General Rights and Obligations - continued

4. The Company's Facilities - continued C

4. Where the Telecommunications Provider reports trouble in relation to the interconnection services to the Company, the Company must initiate trouble repair procedures at such time. C

5. The Company's Right to Enter Premises C

Unless otherwise expressly permitted in this Tariff, a written agreement, or under any guidelines applicable to the Company and the Telecommunications Provider C
and approved by the CRTC, the Company, its employees or agent, shall have no C
right to enter the premises of the Telecommunications Provider, including any premises on which service is currently or is to be provided to the Telecommunications Provider, unless the Company has first obtained express C
permission to do so from the Telecommunications Provider. Prior express permission shall not be required in cases of emergency or where entry is pursuant to a court order. In every case, valid Company identification must be shown to C
the Telecommunications Provider, at the Telecommunications Provider's request, prior to entering the premises.

6. Deposits and Alternatives

1. The Company may require deposits from a Telecommunications Provider: C
   1. which has no credit history with the Company and will not provide satisfactory credit information; C
   2. which has an unsatisfactory credit rating with the Company due to previous payment practices with the Company; or C C
   3. where the provision of the interconnection services to the Telecommunications Provider clearly presents an abnormal risk of loss.
2. The Company must inform the Telecommunications Provider of the specific reason for requiring a deposit, and of the possibility of providing an alternative to a deposit, such as arranging for third party payment, a bank letter of credit or a written guarantee from a third person whose credit is established to the satisfaction of the Company. C C
3. A Telecommunications Provider may provide an alternative to a deposit, provided it is reasonable in the circumstances.
4. Deposits earn interest at the savings account rate of the National Bank of Canada, calculated on the balance of the deposit plus interest accrued prior to the current billing period. The interest will be credited to the account annually or upon refund of the deposit and will be reflected on the Company's next billing statement. C C

PART A Definitions and General Terms
ITEM 102. General Rights and Obligations - continued

6. Deposits and Alternatives - continued

S

5. The Company will show the total principal amount of deposits held on each Telecommunications Provider's billing statement. C

6. The Company must review the continued appropriateness of deposits and alternative arrangements at 6-month intervals. When service is terminated or the conditions which originally justified such arrangements are no longer present, the Company must promptly refund or credit the deposit, with interest, or return the guarantee or other written undertaking, retaining only any amount then owed to it by the Telecommunications Provider. C C

7. At no time may the amount of all deposits and alternatives provided exceed 3 months of charges for all interconnection services provided by the Company to the Telecommunications Provider under this Tariff. C

7. Restrictions on Use of Services

1. A Telecommunications Provider may not use the interconnection services provided by the Company or allow the interconnection services to be used for a purpose or in a manner contrary to any applicable law or regulation. C

2. Neither the Company nor the Telecommunications Provider may re-arrange, disconnect, repair, remove or otherwise interfere with the facilities of the other party, except in the following three circumstances: C

    1. cases of emergency;
    2. where otherwise expressly permitted in the Company's Tariffs; or C
    3. where otherwise expressly permitted by the provisions of an applicable interconnection agreement.

    In all cases the Company or the Telecommunications Provider, as the case may be, must then be notified of the changes as soon as possible. C

3. No payment may be exacted directly or indirectly from a Telecommunications Provider by any party other than the Company for use of any of the Company's interconnection services except where otherwise stipulated in the Company's Tariffs, or by the provisions of an applicable interconnection agreement. C C

PART A Definitions and General Terms
ITEM 102. General Rights and Obligations - continued

8. Non-Disclosure of Confidential Information

As a condition of the Company providing interconnection services to the Telecommunications Provider pursuant to this Tariff, the Telecommunications Provider agrees to protect the Company's confidential information as if it were a party to Schedule A of the MALI.[1] The Company shall provide to the Telecommunications Provider a copy of Schedule A. For its part, the Company shall protect the Telecommunications Provider's confidential information to the same standard. C C | C

9. Refunds in Cases of Service Problems

Where there are omissions, interruptions, delays, errors or defects in transmission, or failures or defects in the Company's facilities, the Company's liability is limited to a refund of charges, on request, proportionate to the length of time that the problem existed. No request is necessary where a problem in service lasts 24 hours or more from the time the Company is advised of the problem. However, where the problem is occasioned by the Company's negligence, the Company is also liable for the amount calculated in accordance with Item 102.10.2. C C C

10. Limitation of the Company's Liability C

1. These Terms do not limit the Company's liability in cases of deliberate fault, gross negligence, anti-competitive conduct, breach of contract where the breach results from the gross negligence of the Company, or disclosure of confidential information contrary to Item 102.8. C C

2. Except with regard to physical injuries, death, or damage to a Telecommunications Provider's premises or other property, occasioned by its negligence, the Company's liability for negligence, and for breach of contract where the breach results from the negligence of the Company, is limited to three times the amounts refunded or cancelled in accordance with Item 102.9, as applicable. C C C

3. The Company is not responsible for: C

    1. libel, slander, defamation or the infringement of copyright or other unlawful activity arising from material or messages transmitted over the Company facilities; C C

    2. the infringement of patents or intellectual property rights arising from the combining or using of the Telecommunications Provider's facilities with the Company's facilities; or C C

1. CRTC, *Agreements and Guidelines*, https://crtc.gc.ca/cisc/eng/ciscmanu.htm. N

PART A Definitions and General Terms
ITEM 102. General Rights and Obligations - continued

10. Limitation of the Company's Liability - continued C

3. damages arising out of the act, default, neglect or omission of the Telecommunications Provider in the use or operation of facilities provided by the Company. C

4. When facilities of third parties are used in establishing connections to or from facilities under the control of a Telecommunications Provider, the Company is not liable for any act, omission or negligence of the third party. C

5. In the provision of interconnection services, the Company is not responsible to the Telecommunications Provider's customer for end-to-end service. C

11. Payment

1. Subject to Items 102.11.2 and 102.11.3, charges cannot be considered past due until the next billing statement has been generated or the time period for payment indicated on the previous billing statement has passed.

2. In exceptional circumstances, prior to the normal billing date, the Company may request payment from a Telecommunications Provider, on an interim basis, for non-recurring charges that have accrued, by providing notice to the Telecommunications Provider with details regarding the services and charges in question. In such cases, subject to Item 102.11.3, the charges can be considered past due 3 days after they are incurred, or 3 days after the Company demands payment, whichever comes later. C C

3. No charge disputed by a Telecommunications Provider can be considered past due unless the Company has reasonable grounds for believing that the purpose of the dispute is to evade or delay payment. The dispute procedure set out in Schedule E of the MALI shall be followed and the Telecommunications Provider must pay the undisputed portion of the billing statement. The Company shall provide to the Telecommunications Provider a copy of Schedule E. C C

4. The Company may request immediate payment in extreme situations, provided that a notice has been issued pursuant to Item 102.11.2, and the abnormal risk of loss has substantially increased since that notice was given, or the Company has reasonable grounds for believing that the Telecommunications Provider intends to defraud the Company. C C C

PART A Definitions and General Terms
ITEM 102. General Rights and Obligations - continued

12. Liability for Unbilled and Underbilled Charges

1. Telecommunications Providers are not responsible for paying a previously unbilled or underbilled charge for interconnection services provided under this Tariff except where:
   1. in the case of a recurring charge, it is correctly billed by the Company within a period of one year from the date it was incurred; or C
   2. in the case of a non-recurring charge, it is correctly billed by the Company within a period of 150 days from the date it was incurred. C
2. In the circumstances described in Item 102.12.l, the Company cannot charge a Telecommunications Provider interest on the amount of the correction. If the Telecommunications Provider is unable to promptly pay the full amount owing, the Company must attempt to negotiate a reasonable deferred payment agreement. C C
3. Items 102.12.l and 102.12.2 above shall not apply in circumstances where there has been deception by the Telecommunications Provider with regard to a charge for interconnection services.

13. Liability for Charges that Should Not Have Been Billed and Those That Were Overbilled

1. In the case of a recurring charge that should not have been billed or that was overbilled, a Telecommunications Provider must be credited with the excess back to the date of the error, subject to applicable limitation periods provided by law. However, a Telecommunications Provider that does not dispute the charge within one year of the date of an itemized billing statement which shows that charge correctly, loses the right to have the excess credited for the period prior to that statement.
2. Non-recurring charges that should not have been billed or that were overbilled must be credited, provided that the Telecommunications Provider disputes them within 150 days of the date of the billing statement.
3. A Telecommunications Provider that is credited with any amount that should not have been billed or that was overbilled must also be credited with interest on that amount at the rate payable for interest on deposits that applied during the period in question.

PART A Definitions and General Terms
ITEM 102. General Rights and Obligations - continued

14. Minimum Contract Period

The minimum contract period for the Company's interconnection services is one month commencing from the date the interconnection services are provided, except where a longer minimum contract period is stipulated in either the Company's Tariffs or an agreement between the Company and the Telecommunications Provider. C C

15. Telecommunications Provider-Initiated Cancellation or Termination of Service

1. For greater certainty, the phrase "reasonable advance notice" as used in this Item 102.15 will generally be at least 30 days. N N
2. A Telecommunications Provider which cancels or delays a request for service before installation work has started cannot be charged by the Company. Installation work is considered to have started when the Telecommunications Provider has advised the Company to proceed, and the Company has incurred any related expense. A Telecommunications Provider which cancels or delays a request for service after installation work bas started, but before service has started, will be charged the lesser of the full charge for the entire minimum contract period plus the installation charge or the estimated costs incurred in installation less estimated net salvage (referred to hereinafter as "cancellation charges"). The estimated installation costs include the cost of non-recoverable equipment and materials specifically provided or used plus the cost of installing, including engineering, supply expense, labour and supervision, and any other disbursements resulting from the installation and removal work. C C C
3. A Telecommunications Provider which gives the Company reasonable advance notice may terminate service after expiration of the minimum contract period, in which case it must pay charges due for interconnection services which have been furnished. C
4. Notwithstanding Item 102.15.2, the Company may waive its rights, in their entirety or in part, to claim cancellation charges in the case where the Telecommunications Provider wishes to replace the interconnection services by one or more of the Company's interconnection services of equal or greater value to the cancelled interconnection service. C C

16. Company-Initiated Suspension or Termination of Service C

1. For greater certainty, the phrase "reasonable advance notice" as used in this Item 102.16 will generally be at least 30 days.
2. The Company may suspend or terminate a Telecommunications Provider's service only where the Telecommunications Provider: C

PART A Definitions and General Terms
ITEM 102. General Rights and Obligations - continued

16. Company-Initiated Suspension or Termination of Service - continued C

1. fails to pay an amount owing by the Telecommunications Provider that is past due, provided that the Company has provided reasonable advance notice; C
2. fails to provide or maintain a reasonable deposit or alternative when required to do so pursuant to these Terms;
3. fails to comply with the provisions of a deferred payment agreement;
4. repeatedly fails to provide the Company with reasonable entry and access in conformity with Item 102.5; C
5. uses or permits others to use any of the Company's interconnection services so as to prevent fair and proportionate use by others; C
6. contravenes Item 102.7; or
7. fails to provide payment when requested by the Company pursuant to Item 102.11.4. C

3. The Company may not suspend or terminate service in the following circumstances: C
   1. where the Telecommunications Provider is prepared to enter into and honour a reasonable deferred payment agreement; or
   2. where there is a dispute regarding the basis of the proposed suspension or termination, provided payment is being made for undisputed outstanding amounts and the Company does not have reasonable grounds for believing that the purpose of that dispute is to evade or delay payment. C
4. Prior to suspension or termination, the Company must provide the Telecommunications Provider with reasonable advance notice, stating: C
   1. the reason for the proposed suspension or termination and the amount owing, if any;
   2. the scheduled suspension or termination date; and
   3. subject to contrary provisions of this Tariff or as approved by the CRTC, that a reasonable deferred payment agreement can be entered into (where the reason for suspension or termination is failure to pay).
5. Where repeated efforts to contact the Telecommunications Provider have failed, the Company must, at a minimum, deliver the notice referred to in Item 102.16.4 to the billing address prior to delivering the notice referred to in Item 102.16.6. C

PART A Definitions and General Terms
ITEM 102. General Rights and Obligations - continued

16. Company-Initiated Suspension or Termination of Service - continued C

6. In addition to the notice required by Item 102.16.4, the Company must, at least 24 hours prior to suspension or termination, advise the Telecommunications Provider or another responsible person that suspension or termination is imminent, except where: C
   1. repeated efforts to so advise have failed;
   2. immediate action must be taken to protect the Company from network harm resulting from facilities controlled or provided by the Telecommunications Provider; or C
   3. the suspension or termination occurs by virtue of a failure to provide payment when requested by the Company pursuant to Item 102.11.4. C
7. Except with the Telecommunications Provider's consent or in exceptional circumstances, suspension or termination may occur only on business days between 8 a.m. and 5 p.m., local time, unless the business day precedes a non-business day, in which case disconnection may not occur after 12 noon local time.
8. Suspension or termination does not affect the Telecommunications Provider's obligation to pay any amount owed to the Company. C
9. In the case of interconnection services that have been suspended, unless suspension occurs during the minimum contract period, the Company must make a daily pro rata allowance based on the monthly charge for such interconnection services. C
10. The Company must restore service, without undue delay, where the grounds for suspension or termination no longer exist, or a payment or deferred payment agreement has been negotiated. Service charges may apply. C
11. Where it becomes apparent that suspension or termination occurred in error or was otherwise improper, the Company must restore service the next day, at the latest, unless exceptional circumstances do not permit this, and no reconnection charges shall be levied. C

17. Assignment

The Telecommunications Provider cannot assign its rights or obligations pursuant to this Tariff without having obtained the prior written consent of the Company, which consent shall not unreasonably be withheld. C

PART A Definitions and General Terms
ITEM 102. General Rights and Obligations - continued

18. Right of Access

When a Telecommunications Provider offers services to tenants within a multi-tenant building, it must provide the Company with direct access, under reasonable terms and conditions, to tenants who choose to receive services to which a right of direct access has been mandated by the CRTC from the Company rather than, or in addition to, services from the Telecommunications Provider. C C

PART A Definitions and General Terms

ITEM 103. Payment of Charges

1. The customer is responsible for payment to the Company of charges for all service and equipment furnished. Fixed charges are billed and payable monthly in advance and other charges are payable when billed except as otherwise stated in Item 102.11.2. C

2. Notwithstanding any other provisions in this General Tariff, the Company may assess a late-payment charge, which provides for administration and carrying charges related to accounts that are owed to the Company and are in arrears. The late payment charge applies when the Company has not received payment within 30 days of the billing date. C C C

3. Late payment charges are forborne from regulation pursuant to Section III of Telecom Regulatory Policy CRTC 2009-424, *Revised regulatory requirements for management of customer accounts*. Late payment charges will be calculated as set out on the Telecommunications Provider's invoice, or at http://www.xittel.net.

PART B Interconnection with Local Exchange Carriers (LECs)

ITEM 200. General

This Part governs the provision of interconnection services associated with facilities and services of the Company and those of Telecommunications Providers that are LECs. A LEC that wishes to interconnect with the Company must also enter into an interconnection agreement with the Company in the form of the MALI. C | C

Interconnection between the Company and a LEC will be made on a per LIR basis. The only exception will be for LECs that are interconnected with the Company on a per-exchange basis as of 29 May 2006, in which case moves, additions and changes will be permitted within these exchanges to the extent permitted by the MALI between the Company and the LEC. C C C

When a LEC is planning to migrate from the exchange-based interconnection regime to the LIR-based interconnection regime, it must respect the terms and conditions and the modification process set out in its existing interconnection agreement with the Company. C

PART B Interconnection with Local Exchange Carriers (LECs)

ITEM 201. Compensation for Traffic Termination

1. Termination of Intra-Exchange or Intra LIR Traffic

1. Traffic imbalance may occur for traffic that is interchanged between the Company and a LEC over designated Bill and Keep trunks. Subject to Item 201.1.2 below that applies to existing exchange-based interconnection, where a traffic imbalance exists, the party which originates less traffic than it terminates is entitled to compensation. It is the responsibility of the party entitled to compensation to detect and apply charges for the imbalance. C C C S

2. For existing exchange-based interconnection, the Company will notify the LEC of any imbalance in the Company's favour that is detected for 3 consecutive months on specific trunk groups (the "initial imbalance"). C C

3. If the Company detects a traffic imbalance in its favour, subsequent to the initial imbalance that applies for existing exchange-based interconnection and for LIR-based interconnection, it shall notify the LEC as soon as possible. For both the exchange-based and the LIR-based interconnection regimes, the non-recurring monthly rates specified below will be applied on the basis of actual traffic imbalances from the date of notification. C C

4. The charge for any month is calculated for each trunk required at the busiest period of that month on the basis of actual traffic imbalance in the month. The non-recurring monthly rates specified below apply for as long as the imbalance exists. When an imbalance recurs in a month subsequent to its declining to zero, the Company shall notify the LEC of the recurrence of the imbalance. The Company will then issue an invoice for the imbalance consistent with the manner in which ongoing imbalance situations are billed. C C C

5. Where a traffic imbalance favourable to the Company exists for a partial month after the activation of bill-and-keep trunks in a new LIR, the Company may waive charges for that partial month. If the Company chooses to do so, billing will resume as normal in the first complete month. N N

PART B Interconnection with Local Exchange Carriers (LECs)
ITEM 201. Compensation for Traffic Termination - continued

1. Termination of Intra-Exchange or Intra LIR Traffic - continued N

Rate items are described below: N

PART B Interconnection with Local Exchange Carriers (LECs)
ITEM 201. Compensation for Traffic Termination - continued

2. Percentage of the compensation payments N

The table below indicates the percentages of the monthly compensation payments to a LEC when the total volume of traffic exchanged between the Company and a LEC over all local shared-cost trunks is at least 10 million minutes per month and the volume of traffic in the direction of that LEC network is more than 80 percent of the total traffic exchanged between the Company and that LEC (the Traffic Threshold) for three months or more. The percentages set out in the table below will continue to apply for each month until the traffic falls to, or below, the Traffic Threshold. N N

Following the initial application of the percentages in the table below, the percentages will apply in any subsequent month when the total volume of traffic exchanged between the Company and that LEC over all their local shared-cost trunks is at least 10 million minutes per month, and the volume of traffic in the direction of that LEC network is more than the Traffic Threshold. N N

The compensation payments are calculated by applying the percentages to the amounts payable using the rates identified in the tables above. N N

Item 201.2 is applicable only in the ILEC operating territories of Bell Aliant, Bell Canada, Bell MTS, Persona, SaskTel, TELUS and Tuckersmith. N N

Percentage of LEC traffic in one direction over total traffic exchanged between LECs	Percentage of the compensation payments to a LEC with highest % traffic in one direction

PART B Interconnection with Local Exchange Carriers (LECs)

ITEM 202. Basic Listing Interchange File

1. Basic Listing Interchange File ("BLIF") service is offered by the Company to LECs operating in Canada. BLIF service is also available to independent directory publishers for the sole purpose of providing directories and to alternate operator service providers for the sole purpose of providing directory assistance. BLIF service provides for a machine-readable file containing non-confidential subscriber listing information ("listings") for the Company's end-customers, listed and intended to be listed in the LEC's directories and directory assistance databases. The Company provides a complete set of end-customer listings, as specified in the BLIF Service Description and Ordering Guidelines document (the "BLIF Document"), for the purpose of providing telephone directories and/or directory assistance information. C C C
2. BLIF service is provided by the Company in accordance with the terms and conditions contained in the BLIF Agreement, including the limitation of the Company's liability. A LEC, an independent directory publisher or an alternate operator service provider who obtains the Company's end-customer listings under this Tariff will herein be referred to as the licensee. The licensee accepts all the obligations of the licensee pursuant to the BLIF Agreement and must enter into the BLIF Agreement for 5 years. The BLIF Agreement is renewable automatically for subsequent 5-year periods. C C C
3. Listings are provided in a format conforming to the specifications set out in the BLIF Document.
4. The BLIF includes all of the required information as specified in the BLIF Document.
5. The licensee may purchase residential listings, business/government listings, or both.
6. The BLIF for the Company's serving area is available on an exchange basis. A listing of the exchanges served by the Company is available on request. C C

PART B Interconnection with Local Exchange Carriers (LECs)
ITEM 202. Basic Listing Interchange File - continued

7. The following is a non-exhaustive list of types of listing information not provided in the BLIF:

   Non-Published Telephone Numbers;
   "Out of Book" Listings;
   800, 877, 888 (toll-free), 600, and 900 listings; C
   Reference Listings;
   911, 811, 711, 611, 511, 411, 311, 211, 0, 1; C
   Listings for WSP end-customers;
   Additional/extra listings;
   Text accompanying listings (e.g., special instructions, Internet listings) C

   In this Item, "out of book" means those listings added to a particular directory when the terminating location of the number is not within the physical region of the directory's coverage.

8. The licensee shall comply with all specifications set out in the BLIF Document pertaining to the receiving LEC.

9. The licensee may terminate the BLIF Agreement at any time by giving written notice to the Company at least 90 days in advance of the effective date of any C
   such termination. The Company shall have the right to terminate the BLIF C
   Agreement upon 10 days prior written notice to the licensee, if the licensee has breached any of its material obligations in the BLIF Agreement or this Item, and the licensee has failed to cure such default within 30 days of receipt of written notice sent from the Company describing the nature of the default. C

10. In the event of termination, any amounts due to the Company pursuant to the BLIF Agreement and this Item shall immediately become due and payable. In such event, the licensee shall immediately discontinue the use of the listings and comply with all other requirements set out in the BLIF Agreement. C

PART B Interconnection with Local Exchange Carriers (LECs)

PART C Interconnection with Interexchange Service Providers (IXSPs)

ITEM 300. General

This Part governs the provision of interconnection services associated with facilities and services of the Company and those of Telecommunications Providers that are IXSPs. An IXSP that wishes to interconnect with the Company must also enter into an interconnection agreement with the Company in the form of the LEC-IXC Agreement. C | C

PART C Interconnection with Interexchange Service Providers (IXSPs)

ITEM 301. Terms and Conditions Applicable to Interconnection with IXSPs

1. The Company will provide at least one suitably equipped point of interconnection (POI) in each exchange or LIR in which it operates as a CLEC. An IXSP may also enter into a transiting arrangement to interconnect with the Company via the ILEC where suitable ILEC facilities exist. C C C

2. Equal Access

   1. Equal Access is available to IXSPs in the Company's serving areas. C

   2. Equal Access is available from any local reseller that is an affiliate of the Company to IXSPs that subscribe to interconnection services from the Company. C C

3. The provision of interconnection services is further subject to the terms and conditions specified in the LEC-IXC Agreement, including the Appendices and Schedules, and in the PIC/CARE Access Customer Handbook described in Item 302.4.3. As an exception to Item 102.8 (non-disclosure), the LEC-IXC Agreement defines and determines the procedures for handling confidential information provided by the IXSP to the Company and specifies procedures with respect to the receipt and processing of orders from the IXSP, interchange carrier billing, network planning requirements and PIC information processing, all in relation to interconnection services. C C | C S

4. As a condition for network interconnection with the Company: C

   1. All IXSPs that establish network interconnection and call routing arrangements related to 900 calls must abide by the Commission-mandated consumer safeguards for 900 service as outlined in Appendix A of Telecom Decision CRTC 2006-48 which may be amended by the Commission from time to time; and C C C

   2. These carriers are to include and enforce in all contracts or other arrangements with their 900 service content provider customers, the requirement to abide by these same Commission-mandated consumer safeguards.

PART C Interconnection with Interexchange Service Providers (IXSPs)
ITEM 301. Terms and Conditions Applicable to Interconnection with IXSPs - continued

5. The Company does not make any representation that its interconnection services shall at all times be available in the quantities requested and at the locations specified by the IXSP. The Company shall, however, devote its best reasonable effort to make such interconnection services available on request, in accordance with the Network Planning section of the LEC-IXC Agreement and taking account of the Company's own requirements. C C C

6. When the Company agrees to provide interconnection services under this Part at the IXSP's premises or at its customers' premises, the IXSP will furnish or arrange to furnish to the Company, at no charge, adequate equipment space and electrical power. C C

7. The IXSP will also furnish or arrange to furnish to the Company, at no charge, any additional facilities or protective apparatus that may be required due to particular hazards at the interconnection locations. C

8. Where equipment or facilities are provided by the IXSP, or its customers, including IX resellers, the interface with the Company's equipment or facilities shall comply with industry-accepted guidelines. C

9. Prior to receiving interconnection service pursuant to this Part, an IXSP must register[1] with the CRTC and with the Company, except IXSPs that resell the Company's switched local exchange or switched interexchange service only to persons physically located in or on the IXSP's business premises. C C C

10. Together with its registration, an IXC shall file with the CRTC a full description of its interexchange network, including information regarding the extent of owned and leased transmission facilities and shall notify the Company of such filing. C

11. Network Changes

    1. The Company makes no representations that its equipment and facilities are adapted or will remain adapted for use in connection with IXSP-provided equipment or facilities. C

    2. The Company reserves the right to change in whole or in part, the design, function, operation or layout of its equipment or facilities as it considers necessary. The Company shall not be responsible to an IXSP or its customers for any equipment or facilities which cease to be compatible with the Company's equipment or facilities or become inoperative because of such changes to the Company's equipment or facilities. C C C C

1. See CRTC, *Register as a Telecommunications provider – About*, https://crtc.gc.ca/eng/comm/telecom/registr.htm. N

PART C Interconnection with Interexchange Service Providers (IXSPs)
ITEM 301. Terms and Conditions Applicable to Interconnection with IXSPs - continued

11. Network Changes - continued

3. The Company will provide the IXSP with advance notice of changes to the Company's equipment or facilities that may affect the IXSP's interconnection with the Company in accordance with applicable CRTC requirements.[1] C C

4. The IXSP shall not implement any change to its operations, services or network which would, in the reasonable assessment of the Company, materially affect the Company's operation, interconnection services or network, without the prior consent of the Company, which shall not unreasonably be withheld. C C

5. The IXSP will provide the Company with advance notice of changes to the IXSP's equipment or facilities that may affect the Company's interconnection with the IXSP in accordance with applicable CRTC requirements. C C

12. Network Outages

1. The Company will provide the IXSP with the earliest possible notice of all network outages affecting the operation of the IXSP's equipment or facilities. C

2. The Company does not guarantee uninterrupted working of its interconnection service, and shall not be liable to the IXSP, its customers or to any other person, for any failure or delay in performance of any interconnection service provided pursuant to this Part, to the extent that such failure or delay is attributable to causes or results from events beyond the Company's reasonable control. Nothing in this paragraph shall extend the liability of the Company as specified in the Terms (Item 102) in the event of network outages or service problems. C C C

13. Protection

The characteristics and methods of operation of any circuits, equipment or facilities of the IXSP, when connected to the Company's, shall not: C

1. interfere with or impair service over any facilities of the Company or any Telecommunications Providers with which the Company interchanges traffic; C C

2. cause damage to the Company facilities; C

3. impair the privacy of any communication carried over the Company facilities, or C

4. create hazards to the Company's employees or to the public. C

1. See Telecom Letter Decision CRTC 94-11, https://crtc.gc.ca/eng/archive/1994/94-11.htm. N

PART C Interconnection with Interexchange Service Providers (IXSPs)
ITEM 301. Terms and Conditions Applicable to Interconnection with IXSPs - continued

14. If such characteristics or methods of operation are not in accordance with Item 301.13, the Company will, where practicable, notify the IXSP that temporary discontinuance of the use of any equipment or facilities may be required. When prior notice is not practicable, nothing contained within the Tariff shall be deemed to preclude the Company from temporarily discontinuing forthwith the availability to the IXSP of any equipment or facility if such action is reasonable under the circumstances. In cases of such discontinuance, the IXSP will be promptly notified and afforded the opportunity to correct the condition which caused the temporary discontinuance. C C

15. During any period of temporary discontinuance of service caused by a trouble or condition arising in the IXSP's operations, equipment or facilities, no refund for interruption of service, as specified in the Terms (Item 102), shall be made.

PART C Interconnection with Interexchange Service Providers (IXSPs)

ITEM 302. Trunk-side Access

1. Feature Group D Interconnecting Circuits

1. Trunk-side access permits the interconnection of facilities to enable the interchange of traffic between the Company and the IXSP and can be configured for Feature Group D (FGD). C
2. FGD interconnection enables the IXSP to offer end-customers access to its services by dialling directly (1+, 0+, 011+, 00- or 01+) or for casual access (10XXX or 10XXXX). C
3. Trunk-side access is provided through FGD interconnecting circuits that may, subject to the availability of suitable facilities:
   1. be connected using Access Tandem (AT) Connection or Direct Connection (DC); and
   2. use MF or CCS7 signalling.
4. The facilities used for trunk-side access may be provided by the Company or any Telecommunications Provider. C
5. The order processing charges specified below apply as set out in the relevant tariff. Rate items are described below: C C
   A. Inward Order, each DS-0 Set ($) N
   B. Change Order, each DS-0 ($) N

PART C Interconnection with Interexchange Service Providers (IXSPs)
ITEM 302. Trunk-side Access - continued

2. Switching and Aggregation

1. The Company offers switching and aggregation service to IXSPs comprised of switching, transport and signalling functions at the originating or terminating end of a call, including, subject to availability: C
   1. hardware answer supervision;
   2. delivery of calling line identification.
2. When an IXSP requests trunk-side access, a switching and aggregation charge applies to each conversation minute of originating or terminating traffic exchanged. This charge is derived by multiplying the charge based on total elapsed carrier connect time by the connect time to conversation minutes ratio.
3. When an IXSP requests Access Tandem Connection, the switching and aggregation charge is comprised of the combined Direct Connection and Access Tandem Connection charges listed below:
4. Charges:

Rate items are described below: N

A. Direct Connect rate based on connect time ($/minute) N
B. Access Tandem rate based on connect time ($/minute)
C. Direct Connect rate based on conversation time ($/minute)
D. Access Tandem rate based on conversation time ($/minute) N

Small ILECs (identified with an asterisk(*)) only have direct connect rates. N
ILECs provide an Access Tandem service that connects to small ILECs. N

ITEM 302. Trunk-side Access - continued

3. CCS7 Signalling

1. CCS7 Signalling service may be provided by the Company to an IXSP for the purpose of call set-up and take-down. The service provides a port connection on the Company designated gateway Signalling Transfer Points (STPs) for each DS-0 channel linking the Company's STPs to the IXSP's STPs or switch(es). An IXSP may establish either IXSP STP-to-STP connection Diagonal Link ("D-link") or IXSP switch-to-STP connection Access link ("A-link"), but not both. C C C C

2. The DS-0 channel facility linking the Company's STPs to the IXSP's STPs or switch(es) may be provided by the Company or by any Telecommunications Provider. C C

Rates

3. The monthly rate for each STP port connection used to establish a DS-0 channel D-link is specified below. IXSPs are required to connect in multiples of 4 DS-0 channels.

4. The monthly rate for each STP port connection used to establish a DS-0 channel A-link is specified below. IXSPs are required to connect in multiples of 2 DS-0 channels per switch.

Service Charges

5. The order processing charges specified below apply for each DS-0 Set of D-links or A-links. A "DS-0 Set" means a group of DS-0s within the same DS-1 connected at the same location and ordered at the same time.

6. When it is necessary for the Company to incur expense in order to meet IXSP requirements for subsequent additions or changes to D-links or A-links, the IXSP shall pay an additional charge based on estimated time and costs incurred to meet the IXSP's request. C

7. In addition, the service charge specified below applies for operations and translations associated with the provisioning of STP port connections to establish DS-0 channels for A-links. This charge applies to each IXSP request for work to be completed at the same time and applies only once for all connections ordered at the same time.

t7 – Transferred from page 42. N

PART C Interconnection with Interexchange Service Providers (IXSPs)
ITEM 302. Trunk-side Access - continued

4. Primary Interexchange Carrier (PIC) Processing

1. Trunk-side access with FGD enables the IXSP to offer its end-customers access to its services by direct dialling. Such access is enabled by identifying the IXSP as the end-customer's PIC. PIC selections may be specified in respect of the Company's end-customer network access services ("NAS") that provide direct-dialled voice access to the PSTN. A list of specific eligible services is included in the PIC/CARE Access Customer Handbook (the "Handbook") described in Item 302.4.3. Charges associated with each of the PIC processing activities described below are set out in Item 302.4.8. C

2. At least 60 calendar days before an IXSP wishes PIC processing to begin, the IXSP must establish a PIC processing account with the Company. When establishing the PIC processing account, the IXSP must provide its Customer Account Record Exchange (CARE) Profile. The CARE Profile form is provided in the Handbook and requires the IXSP to identify specified PIC processing parameters and options. C

   Subsequent changes to the IXSP's parameters and options must be provided to the Company in writing at least 30 calendar days before the requested effective date of the change. C

3. The Company will provide each IXSP that establishes a PIC processing account with an electronic copy of the Handbook or 2 copies of the Handbook if paper is used. The Handbook contains standards and procedures for the processing of PIC transactions between the Company and the IXSP. C C

4. The Company will apply a PIC processing charge to the IXSP selected by an end-customer for establishing or changing a PIC selection in respect of that end-customer's NAS. Changes include adding new or additional NAS, end-customer moves and end-customer initiated telephone number changes. C

5. In the case of PIC selection changes that are disputed by the end-customer or an IXSP on behalf of the end-customer, the end-customer's PIC selection will be reinstated to the previous PIC. The IXSP must then provide evidence of end-customer authorization as described in Schedule 4 of the LEC-IXC Agreement. If such end-customer authorization is not provided within 15 business days from the date of the request from the Company, the IXSP will be deemed to have requested an unauthorized PIC change. In addition to the unauthorized PIC change charge set out below, the PIC processing charge set out below and associated with Item 302.4.4 is assessed to the IXSP that requested an unauthorized PIC change to cover the reinstatement of the unauthorized PIC to the previous PIC selection. C

PART C Interconnection with Interexchange Service Providers (IXSPs)
ITEM 302. Trunk-side Access - continued

4. Primary Interexchange Carrier (PIC) Processing - continued

6. To enable the IXSP to validate or place PIC subscription orders at the working telephone number level, the IXSP may request and obtain from the Company a detailed record transaction in CARE format of all working telephone numbers subscribed to a specific billing telephone number ("BTN"). C

7. To enable the IXSP to perform reconciliation between the IXSP's billing records and the Company's PIC database, the IXSP may request a verification record from the Company. C C

8. The PIC processing service charges described in Items 302.4.2 and 302.4.3 set out below apply at the rate established for the territory where interconnection first occurs. The remaining PIC processing service charges apply at the rates set out below for each territory where the Company and the IXSP interconnect. C

   Rate items are described below: N

   A. Account Set-up, per PIC processing account ($) Item 302.4.2 N
   B. Changes to CARE profile, per request ($) Item 302.4.2
   C. Handbook, per additional copy ($) Item 302.4.3
   D. PIC Processing, per NAS ($) Item 302.4.4
   E. Unauthorized PIC Change, per NAS ($) Item 302.4.5
   F. BTN Detail, per working telephone number provided ($) Item 302.4.6
   G. Verification of record, per NAS ($) Item 302.4.7 N

ITEM 302. Trunk-side Access - continued

5. Carrier Network Profile Change

1. The Company will implement the network and translation options selected by the IXSP at the time of the IXSP's initial order for trunk-side access. The IXSP will indicate its selections by completing a carrier profile questionnaire ("CPQ") in respect of each carrier identification code ("CIC") used. C
2. The following service charges will apply in respect of changes requested by the IXSP to its CPQ at any time subsequent to the initial programming in the Company's switch. The service charges apply to each switch in which modifications are required due to an IXSP's change request. C

These charges include: N

A. International Calling N
B. Abbreviated Dialling No. 1
C. Pre-Subscription Indication
D. Flexible ANI. N

PART C Interconnection with Interexchange Service Providers (IXSPs)

ITEM 303. Network Announcements for Customers of Disconnected IXSPs with Trunk-side Access

1. This service provides for a network announcement to be activated when an IXSP with trunk-side access is disconnected from the Company's network or otherwise ceases to provide its end-customers with access to interexchange services. The Company will route all calls destined for the network of the disconnected IXSP to a recorded announcement. The announcement will inform end-customers that the IXSP is no longer in service and direct such end-customers to contact another IXSP to establish service. The announcement will also provide instructions for making interexchange calls using casual calling. C C
2. The announcement creation fee specified below applies to each IXSP upon the provision of its CARE Profile for the creation of the announcement capability in respect of that IXSP.
3. In addition, each time an IXSP with trunk-side access is disconnected from the Company's network, or otherwise ceases to provide its end-customers with access to interexchange services, the announcement activation charge specified below is assessed to each remaining IXSP having provided to the Company its CARE Profile for that ILEC operating territory, on the date that the announcement is activated. C C
4. Rate items are described below: N
   A. Once-only announcement creation fee ($) N
   B. Announcement activation charge, per occurrence ($) N

PART C Interconnection with Interexchange Service Providers (IXSPs)

ITEM 304. Bulk Transfer of End-Customer Base Between IXSPs

1. This service is intended for situations such as acquisitions or mergers in which one IXSP with trunk side access (the "acquiring IXSP") acquires the equal access end-customer base of another IXSP (the "original IXSP"). The acquiring IXSP can request the Company to convert the end-customers' PIC selections from the original IXSP to the acquiring IXSP on a bulk transfer basis. Before the Company will process the requested transfer, the acquiring IXSP must provide the Company with documentation of the original IXSP's agreement to the bulk transfer of its end-customer base. C C C

2. The acquiring IXSP must request a bulk transfer of an original IXSP's end-customer base from the Company in advance of the proposed transfer date. The advance notice required by the Company and the specific timing of the transfer will vary depending upon the size and nature of the end-customer base to be transferred. C C

3. Charges for processing a request for a bulk transfer of another IXSP's end-customer base are assessed to the acquiring IXSP. The charges consist of a basic charge per request and a variable charge per NAS.

4. Charges

   The rate items listed in this table include: N

   A. A basic charge for each request ($); and N
   B. A variable charge per NAS ($). N

PART C Interconnection with Interexchange Service Providers (IXSPs)

ITEM 305. Billing and Collection Service

1. Subject to the terms and conditions set forth in a Billing and Collection Services Agreement to be entered into between the Company and the IXSP or its agent, the Company will provide or arrange billing and collection service for eligible service provided by the IXSP. Eligible services are defined in the Billing and Collection Services Agreement and include bill to third number, collect, caller pays, directory assistance, casual calling, sent paid, coin telephone, conference call and messaging services. C C

2. Billing and Collection Service includes:

    1. preparation and rendering of bills for charges purchased by the Company from the IXSP which are associated with eligible services provided by the IXSP to end-customers who also maintain accounts with the Company for local service; C C

    2. collection of payments for charges associated with eligible calls placed by end-customers who use the IXSP's eligible services. Payments collected include appropriate taxes, which will be remitted by the IXSP to the appropriate governments unless the Company identifies the end-customer as tax-exempt (for either, or both, of GST and PST/HST). If the end-customer is tax-exempt, the appropriate tax, or taxes, will be removed, and remaining taxes will be recalculated by the Company, if necessary, and the revised tax amounts will be billed; C C

    3. answering of end-customer questions regarding charges billed by the Company for eligible services provided by the IXSP, excluding questions about the details of the IXSP's services, rates, rate structure and similar matters; and C

    4. application of credits and adjustments to end-customer accounts, in accordance with billing and collection services procedures which are provided to the IXSP from time to time by the Company. C

3. The Company's billing and collection service may be provided to the IXSP either by The Company or by its agent. C C

4. The Company will require an implementation period to establish billing and collection service with the IXSP. This period will be identified in the Billing and Collection Services Agreement. C

PART C Interconnection with Interexchange Service Providers (IXSPs)
ITEM 305. Billing and Collection Service - continued

5. Rates

Charges for billing and collection service consist of two components: an accounts receivable management (ARM) discount that applies to each account receivable purchased from the IXSP and billed to the end-customer; and processing charges that apply to each account receivable purchased from the IXSP that is returned prior to billing, billed to a customer, or returned or charged back to the IXSP after billing. C

PART D Interconnection with Wireless Service Providers (WSPs) C

ITEM 400. General

This Part governs the provision of interconnection services associated with interconnection of the facilities and services of the Company and those of Telecommunications Providers that are WSPs. A Telecommunications Provider that owns or operates transmission facilities as a WSP and wishes to interconnect with the Company must be authorized by ISED to provide public mobile radio service in those areas where interconnection is requested and must also sign an interconnection agreement with the Company. Where a WSP provides a competitive interexchange service, the terms, conditions, rates and charges specified in Part C of this Tariff shall apply. C C C

PART D Interconnection with Wireless Service Providers (WSPs)

ITEM 401. Terms and Conditions Applicable to Interconnection with WSPs

1. The Company will provide at least one suitably equipped point of interconnection in each Exchange or local calling area (LCA) in which it operates as a CLEC. C C
2. The provision of interconnection services in this Part is subject to compliance by the WSP with all applicable authorization and equipment certification requirements and all relevant interconnection interface standards established by ISED. C
3. The Company does not make any representation that access interconnection services shall at all times be available in the quantities requested and at the locations specified by the WSP. The Company shall, however, devote its best reasonable efforts to make such interconnection services available on request, in accordance with the provisions of an interconnection agreement between the WSP and the Company and taking account of the Company's own requirements. C C C
4. When the Company agrees to provide interconnection services under this Part at the WSP's premises or at its customers' premises, the WSP will furnish or arrange to furnish to the Company, at no charge, adequate equipment space and electrical power. C C
5. The WSP will also furnish or arrange to furnish to the Company, at no charge, any additional facilities or protective apparatus that may be required due to particular hazards at the interconnection locations. C
6. Where equipment or facilities are provided by the WSP or its customers, the interface with the Company's equipment or facilities shall comply with industry accepted guidelines. C
7. Network Changes
    1. The Company makes no representations that its equipment and facilities are adapted or will remain adapted for use in connection with WSP-provided equipment or facilities. C
    2. The Company reserves the right to change in whole or in part, the design, function, operation or layout of its equipment or facilities as it considers necessary. The Company shall not be responsible to a WSP or its customers for any equipment or facilities which cease to be compatible with the Company's equipment or facilities or become inoperative because of such changes to the Company's equipment or facilities. C C C C

PART D Interconnection with Wireless Service Providers (WSPs)
ITEM 401. Terms and Conditions Applicable to Interconnection with WSPs - continued

7. Network Changes - continued

   3. The Company will provide the WSP with advance notice of changes to the Company's equipment or facilities that may affect the WSP's interconnection with the Company in accordance with applicable CRTC requirements. C | C

8. Network Outages

   The Company does not guarantee uninterrupted working of its interconnection services, and shall not be liable to the WSP, its customers or to any other person, for any failure or delay in performance of any interconnection service provided pursuant to this Part, to the extent that such failure or delay is attributable to causes or results from events beyond the Company's reasonable control. Nothing in this paragraph shall extend the liability of the Company as specified in Item 102.10 of the Terms in the event of network outages or service problems. C C C

9. Protection

   The characteristics and methods of operation of any circuits, equipment or facilities of the WSP, when connected to the Company's circuits, equipment or facilities, shall not: C

   1. interfere with or impair service over any facilities of the Company's or any Telecommunications Providers with which the Company interchanges traffic; C C
   2. cause damage to the Company's facilities; C
   3. impair the privacy of any communication carried over the Company's equipment or facilities; or C
   4. create hazards to the Company's employees or to the public. C

10. If such characteristics or methods of operation are not in accordance with Item 401.9, the Company will, where practicable, notify the WSP that temporary discontinuance of the use of any equipment or facilities may be required. When prior notice is not practicable, nothing contained within the Tariff shall be deemed to preclude the Company from temporarily discontinuing forthwith the availability to the WSP of any equipment or facility if such action is reasonable under the circumstances. In cases of such discontinuance, the WSP will be promptly notified and afforded the opportunity to correct the condition which caused the temporary discontinuance. C C

PART D Interconnection with Wireless Service Providers (WSPs)
ITEM 401. Terms and Conditions Applicable to Interconnection with WSPs - continued

11. During any period of temporary discontinuance of service caused by a trouble or condition arising in the WSP's operations, equipment or facilities, no refund for interruption of service, as set forth in the Company's Terms (Item 102), shall be made. C

12. The WSP shall be responsible for all charges due in respect of equipment, facilities and interconnection services provided by the Company pursuant to this Part. The WSP shall be the sole point of contact with the Company in respect of the equipment, facilities or services provided, including for the purpose of making trouble reports. C C

PART D Interconnection with Wireless Service Providers (WSPs) C

ITEM 402. Trunk-side Access

1. "Trunk-side access" refers to an arrangement using interconnection facilities to enable the interchange of traffic between the Company and the WSP using CCS7 signalling. C

2. Trunk-side access is provided through digital circuits. The facilities used to provide digital circuits may be provided by the Company or a Telecommunications Provider. C

3. Service Charges

   The order processing service charge specified below applies for each DS-0 Set, where "DS-0 Set" means a group of DS-Os, not limited to the same DS-1, that are connected at the same POI and ordered at the same time. The activation or change service charge specified below applies for each DS-0 activated or changed.

   Rate items are described below: N

   A. Order Processing, each DS-0 Set ($) N
   B. Activation or change, each DS-0 ($) N

4. Access Charge N

The trunk-side monthly access charge specified below provides for the common equipment and facilities required to terminate WSP-originated traffic in the Company's local calling area associated with the POI, including transiting to other LECs and WSPs operating in the local calling area associated with the POI. It also provides for the common equipment and facilities required to route to the WSP's NXXs associated with the exchange in which the POI is located. The charge applies for each activated DS-0 and varies according to the total number of activated DS-0s between the WSP switch and the Company's POI. N N

Rate items are described below: N

A. Up to 24 trunks, each trunk ($) N
B. Up to 48 trunks, each trunk ($)
C. Up to 72 trunks, each trunk ($)
D. Up to 96 trunks, each trunk ($)

ITEM 403. Line-side Access - continued

5. Telephone Numbers

1. The charges specified below apply if a WSP requests telephone number ranges in connection with line-side access. The Company provides local C
telephone numbers with in-band signaling either as a dedicated group of C
10,000 consecutive numbers (an entire NXX) or individually from a non-dedicated NXX. Numbers may be activated immediately or reserved for activation at a later date. An entire NXX may be reserved where forecasts warrant. Telephone numbers will be reserved for a minimum of one month and remain reserved until placed in service or released at the C
request of the WSP.
2. The WSP is responsible for all charges levied in respect of all calls associated with any telephone number assigned and activated on behalf of that WSP.
3. The Company does not provide a directory listing in respect of telephone C
numbers reserved or activated on behalf of a WSP. The Company will C
arrange to have a telephone number assigned to a WSP listed in a LEC's directory in accordance with Item 202 upon request by a WSP on behalf of its end-customer. Any charges levied on the Company by the LEC C
providing the directory will be payable by the WSP to the Company. C

6. Charges for Activated Telephone Numbers

The service charge specified below applies for each request to place any quantity of telephone numbers in service at one POI at the same time. In addition, the monthly charge specified below applies for each telephone number activated.

ITEM 403. Line-side Access - continued

8. 100 and 1000 Block Routing

"Block routing" refers to an arrangement whereby the Company will verify that an incoming call is destined to a telephone number activated on behalf of a WSP, then route the call to the WSP's switch on a trunk-side basis, enabling the exchange of CCS7 signalling information. The WSP may request block routing on the basis of blocks of 100 or 1000 numbers. In each territory where interconnection occurs, the service charge per block, the monthly charge per block, and/or a monthly charge per number will apply as set out below. C C

PART D Interconnection with Wireless Service Providers (WSPs) C
ITEM 403. Line-side Access - continued

9. Transfer of Entire NXX

On request, the Company will transfer an entire NXX being used by a WSP for line-side access to use in connection with trunk-side access. The following service charge applies to recover costs associated with the transfer of the NXX from the Company switch to the WSP's switch. C C

PART E Other Interconnection Services

ITEM 502. Port-Out Cancellation Charge

1. This charge applies to the cancellation of a pending request to port a telephone number from the Company to a LEC or WSP in excess of 10% of the total number of valid telephone number porting requests issued by the LEC or WSP in a calendar month, where valid porting requests are those that have been accepted and provisioned. Port-out cancellations that arise due to a subsequent decision from the customer, as indicated by a valid More Recent Authorization received by the Company, or that are attributable to other factors under the control of the Company, such as delays due to missed due dates, will not be included in the port-out cancellation total that is attributed to the LEC or WSP. C C C

2. If a LEC or WSP submits a Local Service Request on behalf of a customer, and another LEC or WSP submits another Local Service Request with More Recent Authorization on behalf of the same customer, the cancellation of the first Local Service Request will not be included in the port-out cancellation total that is attributed lo the LEC or WSP.

3. A port order cancellation will not be included in the port-out cancellation total that is attributed to the LEC or WSP, if:
   - a customer informs the Company that the customer wishes to remain with the Company, rather than proceed with an approved number port to a competitor; and C C
   - the approved number port to a competitor has not already been cancelled by the Company after a 7-day period following the due date of the request. C

4. Charge:
